

It is with great excitement and anticipation that we are welcoming back Dr. Vasilis Kapetanakis to our clinic.

Last year, Dr. Kapetanakis was offered the rare opportunity to work at Mayo Clinic in Scottsdale, Arizona, alongside renowned gynecologic oncologist,

Dr. Javier Magrina. Upon successful completion of his [official minimally invasive fellowship](#), Dr. Kapetanakis has received certification in DaVinci Robotic Gynecologic Surgery from Mayo Clinic (such as one-day surgery for hysterectomy, fibroids, ovarian tumors, endometriosis and robotic surgery for infertility patients).

Furthermore, Dr. Kapetanakis has received Board Certification from the American Board of Gynecology. See [link](#) for U.S. Board Certified doctors.

As part of our continuing mission to provide our patients with qualified specialists, we are proud to welcome back, Dr. Vasilis Kapetanakis.
